

Remote Work & Hybrid Work Policy

Policy ID

POL-HR-001

Effective Date

01 January 2026

Owner

Human Resources

Purpose

This policy defines eligibility, approval, security, attendance, and equipment requirements for employees working remotely or under a hybrid arrangement.

Eligibility

Employees may request remote or hybrid work when their role can be performed effectively outside the office. Eligibility does not create an automatic entitlement. Managers may require office attendance for business, collaboration, training, customer, or operational reasons.

Work Schedule

Employees must remain available during their assigned working hours and attend scheduled meetings. Any change to the normal schedule requires manager approval. Employees are responsible for maintaining a suitable workspace and reliable internet connectivity.

Security Requirements

Company systems must be accessed only through approved devices, identity controls, and security software. Confidential information must not be displayed or discussed where unauthorized people can observe or hear it. Employees must use approved VPN or secure access mechanisms when required.

Equipment

Company-issued laptops and accessories remain company property. Employees must report loss, theft, or suspected compromise immediately. Installing unapproved software or disabling endpoint security controls is prohibited.

Approval & Review

Remote arrangements may be reviewed periodically based on performance, operational needs, security requirements, and team collaboration. Managers may revoke an arrangement when policy requirements are not met.
